Agenda for May 11, 2019

The May meeting is presented by the Northeast group.

Keith Mealy will present a session on **picture framing**. Keith has made over 100 picture frames from 3" x 5" to 60"x 80", the latter for some \$20K paintings. He will demonstrate starting with a frame design through getting it ready to hang on the wall, and what processes, materials and tools to use along the way.

There will also be a **Methods of Work** presentations on table saw jigs for safely repeating cut-offs, ripping tall pieces and tapering.

Gene Wiggs and Keith Mealy will show some of the "Japanese Tool Boxes" that they have made. These are very easy to make, clever, and compact tool boxes for workshop or on-site work.

Due to lack of number of entries, there will be no woodworking project competitions at the May meeting (Founders and Weissborn competitions)

Show and Tell and Quick Shop Tips

At each meeting we have a **Show and Tell** of recent projects or techniques by members. If you have projects that you've recently made and would like to display and present for 3-5 minutes, bring them along.

Quick Shop Tips is another feature to our meetings. Present a 3-5 minute topic that can be on any shop-related tip or technique – safety, sharpening, joinery, new or handy tools, methods or materials, finishing, wood properties, jigs and fixtures, etc.

Come and share your knowledge. These presentations are ad hoc – no reservation needed.

May Luncheon

Immediately following the meeting will be the annual luncheon. Plan to stay for the meal and socialize with fellow club membes.

Krenov-inspired cabinet

Mil-spec toys

Beautiful boxes

Help and Thanks

- Thanks to the “Gang of Five” and especially VP Larry Saupe for organizing the annual spring seminar on hand tool woodworking held on April 20.
- Co-Chairs. Each of the five neighborhood groups organizes one meeting a year. You do not need to be in the geographic areas named to help with this.
 - Stephen Fridrick and Rennington Traylor have graciously stepped forward to co-chair the NE group, the sponsors for this meeting. Thanks to all their hard work to get the meeting and luncheon arranged.
 - Erik Hassan is the co-chair for the SE group with John Libbert
 - Bill Fee would like a co-chair for the SW group.
- Gene Wiggs has taken over the Jim Schaefer CAP Toy Drive coordinator. Thanks Gene, and George Murphy for his years of service. Gene will talk about the 2019 toy drive at the meeting so you have some summer and fall projects to work on.
- Web development & maintenance. Darrell McNulty has done a tremendous job bringing our club web site current with technology. He would appreciate some help keeping it going forward. If you have or want to develop web-development skills this is a great opportunity. Many new members have found us via the web site. Darrell has also done a great job updating our A/V equipment
- Methods of Work. A ‘methods of work’ is a short presentation of ideas that you can use in your shop, similar to the subscriber shop tips in the front of magazines. At each meeting we try to have a number of these short presentations by members on various topics. Even if you have a process that you think everyone knows, they probably don’t. Sign up at any meeting and you’ll be added to the list to present at a future meeting.

Church Security

Northminster Presbyterian Church has installed a new timer system and we woodworkers will only have Saturday Meeting Day access via the ramp door to the left of the back parking lot stair doors we historically used. The ramp door will automatically unlock on our meeting day at 7:45 am and lock at 12:45 pm.
