**Jim Schaefer Toy Drive & Charity Boxes**

Children's Hospital has a need for and will accept toys year-round, so you don't need to wait until next Christmas to become part of this project. The Woodworking Club has wood available for toy projects, along with a wide variety of toy parts for anything you might want to build. We also have a library of toy plans and books you can use for inspiration. Contact Dick Wesling ([rawesling@aol.com](mailto:rawesling@aol.com) , 513-570-6368) for more info or to arrange a drop-off or pick-up.

Charlie Harte [crharte@mac.com](mailto:crharte@mac.com) is the box building coordinator for memory boxes and other charity projects. Contact him if you'd like to contribute by making small boxes. Our goal is to supply 30 boxes a month for Children's Hospital. Also, Charlie would like to request box making wood if anyone would like to get rid of some. He can use any species about 1/4 to 3/8" thick, 3" wide and at least 5 inches long. 5" for ends, about 9" for the sides. He'll be happy to take someone's scrap pieces! Bring to the meeting or contact Charlie.

## CWC Women in Woodworking

We generally have five to seven women members in our club, however only a couple attend the meetings. At our May meeting during break, Larry Saupe spoke with Janice Urbanik about how we can increase women membership and participation in the club. She took the project on and a week later asked for assistance in getting contact information for our women members. So here we are three months later and he asked Janice to bring us up to date as to what she has accomplished, and it has been tremendous, in her own words below.

With Larry's help, I contacted the club's current female members to assess interest in getting together to meet each other and to provide a response to his question. I also recruited women who live in the area from a "Women in Woodworking" Facebook group and found a few who were not aware of the club and wanted to learn more. Five of us got together in June at a local restaurant and enjoyed hearing about each other's work, sharing tips and tricks, equipment recommendations, and were inspired by what we were all doing. We also provided feedback on what could be done to improve attendance and membership and were happy to hear the club is acting on most of our suggestions. We are meeting again on September 19th, 6:00 pm with a TBD location. At that meeting, we will be discussing a potential project for people with dementia. If you are interested in joining us, please contact me at [jlurbanik@gmail.com](mailto:jlurbanik@gmail.com).

### **Pear Wood**

Member William (Gary) Claytor has some pear wood that he would like to give away. It came from a limb off an Aristocrat Pear in his front yard. It's cut up in circles, sealed with wax and ready for the lathe. It's really pretty with the wax on it. Looks like a cross between cherry and mulberry. Once you cut it and expose it to the air, it turns pure white with very little figure. It is good to turn though. Cuts as smooth as can be with virtually no tear out. He just can't get to it all before it is going to go bad. If anybody wants a piece, he lives in West Chester and you can come get it. He can be reached at : [williamclaytor@fuse.net](mailto:williamclaytor@fuse.net). He checks e-mail every day, but doesn't answer the phone for unrecognized numbers. This is time sensitive as it probably needs to be turned in the next week or so.

### **Molder/Planer for Sale**

Keith Neer has a W and H Molder Planer listed on Craigslist under the tool section that is in excellent condition and available for sale. Contact him with any questions. Keith Neer [Woodworker494@gmail.com](mailto:Woodworker494@gmail.com) 513-373-0098

<https://cincinnati.craigslist.org/tls/d/williamsburg-molder-planer/7657657458.html>

### **Barn Wood**

Kenneth Bottom sold his bank barn from the 1880's and saved this wood that was left by the guy that bought it. Would any members have any interest in the wood, some believed to be oak? His thought was to trade the wood for something made with the wood, like end tables. He lives on Stahlheber Road in Hanover Township, between Hamilton and Oxford. Contact at 513-266-8500

### **Radio Console - Free**

This is an old RCA (WW2 era) console. It has all components, though last time I tried, it would not work. Everything worked when it was in my parents house.

I know some hobbyists will find tubes and return these to function, others will gut and use just the cabinet for alternative furniture. I am a little environmental and hate to see something like this, so

much workmanship, style, etc just go to landfill. Might any of the members want this? I don't have a truck or van, but if someone does and can come over , I can help load/unload.

### **Tools and Wood for Sale**

Janet North, widow of the late club member Earl North, is cleaning out his shop. In a separate document are lists of small power tools, lumber, and specialty tools. There is also lumber of all kinds of wood and the board foot prices. If you are interested in anything, please call or email her. She can bring a tool to the meeting. She will also be there with a selection of smaller items in her car for a trunk sale. She spent the last week identifying and organizing the lumber yard. She tried to set reasonable prices, but is willing to negotiate. Location is north Sharonville.

Contact Janet North 513-489-5162 landline or 513-704-8813 cell [jlnorth@fuse.net](mailto:jlnorth@fuse.net)

Also, he spends a lot of time editing from first person (I have my ..., I'd like to..., Contact us...) to third person (He has his..., She wants to..., Contact them...) and would appreciate it if your requests do that. PDF files work better than .DOC or .XLS files. Also, if you have a price in mind or if free, please list that for better responses.
