September 14, 2013 Meeting Agenda

INSIDE THIS ISSUE

Meeting Agenda	1
Safety Requirements	1
Dues and Contacts	2
Jim Schaefer Toy	3
Membership Application	4
Glue –ru Seminar	5

Two speakers will be featured in this season's kick-off meeting.

Charles Bender has been a professional woodworker for more than 30 years. He is the lead instructor for The Acanthus Workshop in Pottstown, Pa. He is the host of the online show No BS Woodworking and star of many woodworking videos. In recent years he has authored articles for Popular Woodworking with subjects of: Carving Spanish Feet; It's a Secret; Bookstand, A William & Mary Rarity; The William & Mary Style; Trifid Feet; Just Plane Round; and Quarter Columns. He has just taken a full time job with Popular Woodworking Magazine and is in process of moving to Cincinnati. His subject for this meeting is something rather unique Bermuda Dovetails.

Ken Neaman, a CWC Member is familiar to most of us for his previous presentations on various topics including personalizing your pieces, making sculpted furniture legs, and including secret compartments. This time he will tell us about this unique Tiger Maple Buffet/Chest of Drawers he designed and built. Too big to conveniently haul to meetings, this project was evaluated as the best by the traveling judging team. The club awarded Ken the Fred Weissborn prize last season. This piece has Chippendale qualities about it and Ken will explain how it evolved and show us details as well as fixtures created for it.

Meeting Projector

I would like to ask the CWC members to contact me who have access to a projector that they could bring to the meeting.

The CWC would like to try out a few projectors to see if the projector we are using is the issue before we buy a new replacement.

Thanks

Jay Ratcliff jbrat@fuse.net

Safety Requirements for Toys

NO FINISH OF ANY KIND even though you believe it is "safe". This includes printed decals and felt pen decoration.

NO VINYL PARTS

SMALL PARTS Check for small parts whether attached, removable or as a separate piece using the small parts test cylinder. Area group leaders have test cylinders available or bring parts to the meeting. If attached, small parts must be firmly secured to resist 15 lb pulling force. We recommend using two different securing methods on small parts, for example glue plus nail or screw. Pull testing is available at the meeting.

CORDS, ROPE, STRING Pull cords for pull toys can be of any length but they cannot have any knots, ball or handle on the pull end. Pull end of cord cannot exceed the diameter of the cord itself.

Cords, rope or string other than pull cords must be less than 12 inches in length

Reminder!
Please pay your membership dues this meeting.

MEMBERSHIP DUES

Membership dues are payable each September – the beginning of our club year.

We encourage you to pay promptly and support your fine club.

New members may join at anytime. Your CWC dues are a great value and pay the club's many expenses Your benefits include the meeting room, audiovisual system, videos, Web site, newsletter, advertising, doughnuts and the annual May meeting luncheon. Dues also pay for the door prizes at each meeting, therefore we ask that only current, paid members participate in the door prize drawings.

Annual Dues: Adults \$15.00
 Student \$ 5.00

To join or renew, fill out the attached Membership Application form on page 4 and with your payment, mail it or bring it to the next meeting. You may also complete the application online on the club web site. CINCINNATIWOODWORKINGCLUB.ORG

Need to know if you are paid up? A Paid Members List is posted at each meeting. If you receive this newsletter via U.S. Mail, check the mailing label, a "13", indicates you are paid up for the 2013 - 2014 club year.

CWC is open to woodworkers of all skill levels,

without regard to sex, race, religion, national origin, age, or handicap.

CLUB CONTACTS

Have questions about the club? We Will be glad to help.

COMMUNITY SERVICE PROJECTS

Jim Schaefer Toy Project 2013

It's that time of the year again. We will be taking toys to Mt Vernon right after our November meeting. If you have completed toys for this year please bring them to the November meeting.

More information in the next news letter. If you would like to make toys it's not too late. The following is helpful information.

Favorite Toys.

Feedback from the Director of the Christian Appalachian Project indicates the following toys as favorites among the children.

1. Pull Toys
2. Workable dump trucks or bulldozers
3. Three car carriers
4. Wooden puzzles
5. Cradle and dolls

Requirements for toys:

- No finish of any kind, even though you believe it is "safe"
- Small parts must be firmly attached to resist 15 lb pulling force. We recommend glue, and where possible, cross-fasteners such as brads.
- Removable parts on toys used by children under three must pass the cylinder test. Group leaders have these available for borrowing.
- Pull cords can be around 17 inches as long as the end of the cord is plain (no knots or handle).

Toy Making Supplies.

We have the following toy making supplies.

1. 1. Wheels from 1 to 2 inches
2. 2. ¼, 3/8 and ½ inch dowels
3. 3. Axle pegs
4. 4. One, 1 ¼, and 1 ½ inch balls
5. 5. Locomotive stacks
6. 6. Two inch split balls
7. 7. ½ x ¾ inch various colored beads
8. 8. Various toy plans.

Any toy maker that would like to have a supply of these items please contact John Leonardi at 513-921-2027. You can either pick these up from him or the following individuals have some of the supplies Larry Lockwood, Earl North or Terry Elfers. If anyone can think of a toy making item that you would like, we may be able to reimburse you for the item. Just contact John. Dusty and Howard have retired from taking the toys to Mt. Vernon in November. Bob Steiner has volunteered to take them if his company van is available. We need a backup plan. We need a volunteer to drive a rented van to Mt Vernon. Please let John know if you are willing to do this.

MISCELLANEOUS

The Northwest Leaders request that the Northwest Group Members arrive a half hour early and/or stay after the meeting to help set up and put everything back the way it was before the meeting.

Donuts and Coffee

Donuts will be available at this meeting Bring your own coffee. The coffee should be in cups with lids and in the unlikely event you should spill some of the coffee

Please
