The Cincinnati Woodworker

Dedicated to Sharing Woodworking Knowledge

The Cincinnati Woodworking Club Newsletter

Agenda for March 10, 2018

The Central Group presents this two part March Program.

Program Presentation-The Hunt for the Perfect Work Bench

Club member Don Eling will discuss the steps he took to select a new work bench. He will discuss and show how he built the bench, which includes both a tail vise and a leg vise.

Program Presentation-Building an Octagonal Table

Howard Renner, also a club member, will discuss the steps he took to build an octagonal poker table.

Methods of Work

Club members will present several methods of work at the meeting.

Show and Tell

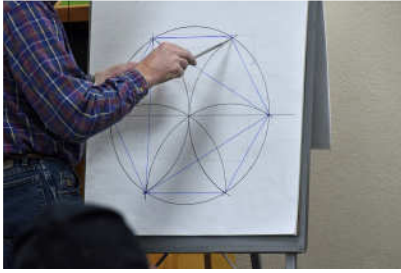

Please share projects you made or new tools or gadgets you have acquired. We have Show and Tell at every meeting. We all get inspiration and ideas from seeing what others have done. Let's see what you have been up to and "share the woodworking knowledge"

January Auction

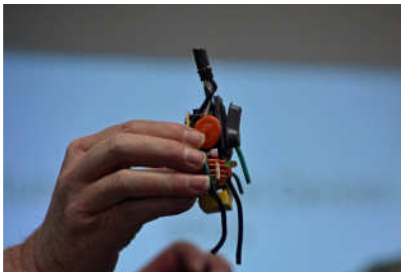

Thank you for supporting the January auction by donating auction items, or by purchasing the items. You helped raise \$263.00 for our charity projects. BUT – we are not done. Due to the inclement weather, not all auction items could be brought to the January meeting. These remaining items will be brought to the May meeting, and another auction will be held then.

Employment Opportunity

A local, but nation-wide, woodworking supplier is looking for a knowledgeable person to work on customer phone support, part-time. At least part of the time you can work from home. If you are interested in exploring this opportunity, contact Keith Betscher at betscherkeith@gmail.com.

Straightedge and compass construction.

Inside a surge protector

Sabre saw conversion to table mounted.

Micro-adjustable re-saw fence for band saw

Spring Seminar April 21 9AM - 3PM

The spring seminar will be held at New Life Furniture Bank (NLFB), 11431 Williamson Rd, Unit D, Cincinnati, OH 45241. We will discuss common finishes, strengths and weaknesses of each, and how to apply. We will also cover how to apply coloring and options in doing so. One of our aims is to get understanding and expand your finishing skill set. Sign up at the meeting or contact Dusty Eling for registration.

Cost is \$30 and lunch will be provided.

Directions to New Life: NLFB is located in Blue Ash, near Sharonville. From I-275, drive south on Reed Hartman. Turn right on Cornell and continue to the first street on the right. Turn right on Williamson and continue to near the end of the road. The class is at the far end of the strip building. You can park in front of New Life, or to the right side of the building, or behind the building. Do not park on the street. You can enter the building from the front, the right side, or the back.

Methods of Work.

At each meeting we have a series of short presentations with ideas that you can use in your shop, similar to the subscriber shop tips in the front of magazines. If you have something you'd like to share there is a sign-up sheet at the meeting. Topics can include: Safety, Sharpening, New (or handy) tools or materials, Jigs and Fixtures, Finishing or general Shop Tips.

Thanks Jim

Thanks to Jim Baldock for organizing the woodworker's lunch that was held on February 10. We had a great time.

Jim also organized the "Share Our Skills" hands on session on Feb 17. Members gathered to discuss the Tormek Sharpening System.

We plan to have more "Share Our Skills" sessions in the future on months when we don't have club meetings. If you have not filled out an interest survey, do so at the meeting so we can plan future topics.

Mentoring

We'd like to set up a "mentor" program where members with particular skills can assist members looking for information. Larry Saupe will talk about this at the meeting.

Toy Making

For some time, a group calling themselves the "Toyz Boyz" has gathered at a shop on the west side to produce toys for our annual CAP toy drive. We are thinking of starting a similar group on the NE side of town. Let Bill Fee know if you are interested in joining this new group.

Possible Field Trip

We are thinking about a field trip to a museum in Louisville. Speed Art has a collection of furniture that looks interesting. Time permitting, we may catch another museum on "museum row" or the Louisville Slugger factory. We can car pool, or, if we have enough, do a charter bus like we did for Frank Miller Lumber. We'll discuss tentative plans and interest at the meeting.

Founders' Award

In May we hold a competition, the Founders' Award. **Please sign up at the March meeting or contact Dusty Eling by April 10 (513-563-8237) if you plan to enter the competition.** If we don't get a quorum, the event will be deferred until next year.

Bring your favorite project (or a picture of the project) to the May meeting to participate in The Founders' Award competition. You can give a 3-5 minute presentation discussing your project. Members present at the meeting will vote to determine the top three projects. This competition is open to all members and any type of project. We need at least 6 members to sign up in advance in order to hold the competition. This judging will be held at the May meeting.

Toy Drive 2018

Based on CAP feedback regarding what we delivered in 2017, more passenger airplanes, rolling ball turtles, blocks in wheeled cart, tool carriers with tools and a couple of new items are the goal for 2018. George Murphy plans to have drawings, key commercial components and some wood available. We also have funds for materials purchases. See or contact George if you can help. murphyhg@fuse.net
